

CONTENTS

Executive Summary	ES-1
What is the Center City Connector?	ES-1
Why is the Center City Connector needed?	ES-1
Where is the Center City Connector located?	ES-1
Why is an environmental analysis being prepared?	ES-3
What alternatives were considered?	ES-3
How were alternatives screened?	ES-5
What is the Locally Preferred Alternative?	ES-6
When would construction begin and how long would it take?	ES-8
What potential impacts would result?	ES-10
What are the proposed methods to minimize or mitigate potential impacts?	ES-14
How have interested members of the public and key stakeholders been involved?	ES-16
1 Introduction	1-1
2 Project Purpose and Need	2-1
2.1 Project Purpose.....	2-1
2.2 Project Need	2-1
3 Alternatives	3-1
3.1 Alternatives Screening Process	3-1
3.2 Range of Alternatives Considered	3-2
3.3 Screening Results	3-2
3.3.1 Initial Screening	3-4
3.3.2 Tier 1 Screening	3-4
3.3.3 Tier 2 Evaluation.....	3-5
3.4 Alternatives Carried Forward.....	3-6
3.4.1 No Build Alternative	3-6
3.4.2 Locally Preferred Alternative.....	3-8
4 Affected Environment, Consequences, and Mitigation Measures	4.0-1
4.1 Transportation	4.1-1
4.1.1 Regional Facilities and Travel	4.1-3
4.1.2 Transit Systems.....	4.1-6
4.1.3 Arterials and Local Streets.....	4.1-21
4.1.4 Freight	4.1-37
4.1.5 Non-motorized Facilities	4.1-38
4.1.6 Parking	4.1-43
4.1.7 Mitigation Measures.....	4.1-47
4.2 Air Quality and Greenhouse Gas	4.2-1
4.2.1 Air Quality Standards and Conformity	4.2-1
4.2.2 Air Quality Conditions	4.2-3
4.2.3 Impacts.....	4.2-4
4.2.4 Mitigation Measures.....	4.2-8
4.3 Noise and Vibration	4.3-1
4.3.1 Noise	4.3-1
4.3.2 Vibration	4.3-4
4.3.3 Impacts.....	4.3-6
4.3.4 Mitigation Measures.....	4.3-17

- 4.4 Land Use..... 4.4-1
 - 4.4.1 Impacts..... 4.4-2
 - 4.4.2 Mitigation Measures..... 4.4-6
- 4.5 Economics..... 4.5-1
 - 4.5.1 Impacts..... 4.5-4
 - 4.5.2 Mitigation Measures..... 4.5-7
- 4.6 Social and Community Effects..... 4.6-1
 - 4.6.1 Neighborhood Characteristics..... 4.6-1
 - 4.6.2 Community Facilities..... 4.6-2
 - 4.6.3 Demographics 4.6-4
 - 4.6.4 Impacts..... 4.6-5
 - 4.6.5 Mitigation Measures..... 4.6-7
- 4.7 Visual and Aesthetic Resources 4.7-1
 - 4.7.1 Assessing Impacts on Visual and Aesthetic Resources 4.7-1
 - 4.7.2 Existing Conditions 4.7-2
 - 4.7.3 Impacts..... 4.7-8
 - 4.7.4 Mitigation Measures..... 4.7-21
- 4.8 Stormwater/ Water Quality 4.8-1
 - 4.8.1 Impacts..... 4.8-2
 - 4.8.2 Mitigation Measures..... 4.8-3
- 4.9 Utilities, Energy, and Electromagnetic Fields..... 4.9-1
 - 4.9.1 Utilities..... 4.9-1
 - 4.9.2 Existing Energy Use and Supply..... 4.9-1
 - 4.9.3 Electromagnetic Fields 4.9-3
 - 4.9.4 Impacts..... 4.9-3
 - 4.9.5 Mitigation Measures..... 4.9-7
- 4.10 Hazardous Materials 4.10-1
 - 4.10.1 Hazardous Materials Sites within the Study Area..... 4.10-2
 - 4.10.2 Impacts..... 4.10-6
 - 4.10.3 Mitigation Measures..... 4.10-8
- 4.11 Geologic and Soil Resources 4.11-1
 - 4.11.1 Topography, Regional Geology, and Seismicity..... 4.11-1
 - 4.11.2 Hydrogeological Conditions 4.11-2
 - 4.11.3 Geologic Hazards 4.11-2
 - 4.11.4 Impacts..... 4.11-3
 - 4.11.5 Mitigation Measures..... 4.11-5
- 4.12 Public and Emergency Services 4.12-1
 - 4.12.1 Fire and Emergency Medical Services..... 4.12-1
 - 4.12.2 Police..... 4.12-3
 - 4.12.3 Impacts..... 4.12-3
 - 4.12.4 Mitigation Measures..... 4.12-6
- 4.13 Parks and Recreational Resources 4.13-1
 - 4.13.1 Impacts..... 4.13-5
 - 4.13.2 Mitigation Measures..... 4.13-7
- 4.14 Historic, Cultural, and Archaeological, Resources/Section 106..... 4.14-1
 - 4.14.1 Historic Architectural Resources..... 4.14-3
 - 4.14.1 Archaeological Resources in the APE..... 4.14-9
 - 4.14.2 Impacts..... 4.14-9
 - 4.14.3 Mitigation Measures..... 4.14-18
- 4.15 Environmental Justice 4.15-1
 - 4.15.1 Study Area Demographics 4.15-1

- 4.15.2 Outreach to Minority and Low-Income Populations4.15-6
- 4.15.3 Impacts.....4.15-8
- 4.15.4 Mitigation Measures.....4.15-11
- 5 Cumulative Impacts5-1**
 - 5.1 Geographic and Temporal Boundaries of Cumulative Analysis5-1
 - 5.2 Past and Present Actions5-2
 - 5.3 Reasonably Foreseeable Future Actions5-3
 - 5.4 Cumulative Impact Assessment5-9
 - 5.4.1 Transportation5-9
 - 5.4.2 Air Quality and Greenhouse Gas5-11
 - 5.4.3 Noise and Vibration5-12
 - 5.4.4 Land Use5-12
 - 5.4.5 Economics.....5-13
 - 5.4.6 Social and Community Impacts.....5-14
 - 5.4.7 Visual and Aesthetics Resources.....5-14
 - 5.4.8 Stormwater/Water Quality5-15
 - 5.4.9 Utilities, Energy, and Electromagnetic Fields5-15
 - 5.4.10 Hazardous Materials.....5-16
 - 5.4.11 Public Services and Safety5-16
 - 5.4.12 Park and Recreational Resources5-17
 - 5.4.13 Historic, Archaeological, and Cultural Resources5-17
 - 5.4.14 Environmental Justice.....5-18
 - 5.5 Mitigation Measures for Cumulative Effects.....5-19
- 6 Mitigation Measures6-1**
- 7 Public, Tribal, and Agency Coordination and Involvement.....7-1**
 - 7.1 Overview of Phased Outreach Efforts.....7-1
 - 7.1.1 Stakeholder Interviews7-2
 - 7.1.2 Public Open Houses and Comment Cards7-3
 - 7.1.3 Online Materials and Surveys7-4
 - 7.1.4 Targeted Outreach.....7-4
 - 7.2 Agency Coordination7-5
 - 7.2.1 Federal Agencies and Native American Tribes7-5
 - 7.2.2 Regional, State, and Local Agencies7-6

List of Appendixes

- A1 Acronyms and Abbreviations
- A2 References
- A3 List of Recipients
- A4 List of Preparers
- B1 Seattle Center City Connector Transit Study Volume I: Locally Preferred Alternative Report (on CD only)
- B2 Seattle Center City Connector Transit Study Volume II: Detailed Evaluation Report (on CD only)
- C Construction Phasing Concepts
- D4.2-A Intersection Data
- D4.2-B Synchro Data
- D4.2-C CAL3QHC Data

- D4.4 Consistency with Land use Plans, Goals, and Policies
- D4.10 Hazardous Material Sites with Potential to Affect the Project (EDR Forms on CD only)
- D4.14 Historic Properties in the Area of Potential Effect Listed or Determined Eligible for the National Register of Historic Places
- D4.15 Social Resources and Environmental Justice Impacts and Mitigation Summary
- E Permits and Approvals
- F Section 4(f)
- G Preliminary Design Drawings of Locally Preferred Alternative
- H1 Transportation Technical Report (available on CD, or separately bound upon request)
- H3 Noise and and Vibration Technical Report (available on CD, or separately bound upon request)
- H7 Visual and Aesthetic Resources Technical Report (available on CD, or separately bound upon request)
- H14 Cultural, Historic, and Archaeological Resources Technical Report (available on CD, or separately bound upon request)
- I Endangered Species Act Screening Checklist

List of Figures

- ES-1 Project Location, Showing Connections with South Lake Union and First Hill Streetcar Systems ES-2
- ES-2 Alternatives Considered..... ES-4
- ES-3 Design Options Considered..... ES-5
- ES-4 Locally Preferred Alternative..... ES-7
- ES-5 Construction Segments for the Center City Connector Trackway ES-9
- ES-6 Public Engagement at Key Milestones..... ES-17
- 1-1 Project Vicinity in Seattle, Showing Connections with South Lake Union and First Hill Streetcar Systems..... 1-3
- 3-1 Evaluation Process Overview 3-1
- 3-2 Range of Alternatives Considered 3-3
- 3-3 Design Options Considered 3-5
- 3-4 Existing, Planned and Funded Transportation Facilities in the Study Area..... 3-7
- 3-5 Project Components Map 3-10
- 3-6 Stewart Street and First Avenue Cross Sections 3-11
- 3-7 TSP and Turning Modifications for Intersection along the LPA 3-13
- 3-8 TPSS Locations and OCS/Wireless Segments..... 3-14
- 3-9 TPSS as a Freestanding Structure (example located at Broadway and Minor Avenue) 3-15
- 3-10 TPSS Placed Inside an Existing Parking Garage (example located in Portland, Oregon) 3-15
- 3-11 Site Plan of the South Lake Union OMF Expansion..... 3-17
- 3-12 Site Plan of the Chinatown-International District OMF Expansion 3-17
- 3-13 Construction Segments for the Center City Connector Trackway 3-21
- 3-14 Construction Phasing..... 3-22
- 4.1-1 Study Area for Transportation Analysis..... 4.1-2
- 4.1-2 Major Existing and Planned Transit Service along Proposed Alignment 4.1-7

4.1-3 Future Daily Streetcar Boardings by Station, 20184.1-20

4.1-4 Future Daily Streetcar Boardings by Station, 20354.1-20

4.1-5 2018 No Build Alternative and LPA Intersection LOS, PM Peak4.1-23

4.1-6 2035 No Build Alternative and LPA Intersection LOS, PM Peak4.1-24

4.1-7 2018 No Build Alternative and LPA Travel Time (by mode)4.1-31

4.1-8 2035 No Build Alternative and LPA Travel Time (by mode)4.1-32

4.1-9 Existing Pedestrian Facility Condition along LPA.....4.1-39

4.1-10 Existing and Proposed Bicycle Facilities4.1-40

4.1-11 Existing Parking Facilities4.1-44

4.2-1 Air Quality Maintenance Areas4.2-2

4.2-2 MSAT Trends4.2-7

4.3-1 FTA Project Noise Impact Criteria.....4.3-3

4.3-2 Examples of Groundborne Vibration Levels and Human/Structural Response.....4.3-5

4.3-3 Noise Monitoring Locations and Impacts at 25 MPH.....4.3-8

4.3-4 Vibration Monitoring and Vibration Impacts.....4.3-11

4.4-1 Urban Villages in Downtown Urban Center and the Center City Connector Study Area4.4-3

4.4-2 Zoning in the Center City Connector Study Area4.4-4

4.5-1 Center City Connector FAZ Area Map4.5-2

4.5-2 Percent of Total Employment by Industry Sector (2010)4.5-3

4.5-3 Percent of Total Employment by Industry Sector (2040)4.5-4

4.5-4 Unemployment Rates (1990-2014)4.5-4

4.6-1 Community Facilities in the Study Area4.6-3

4.7-1 Landscape Units and Key Observation Points (KOPs).....4.7-3

4.7-2 Typical Visual Character Photos for Each Landscape Unit4.7-6

4.7-3 Protected Views.....4.7-7

4.7-4 KOP 1 – McGraw Square as Seen From Stewart Street and Fifth Avenue,
Looking East.....4.7-10

4.7-5 KOP 2 – Stewart Street and Olive Way Between Third Avenue and Fourth
Avenue, Looking East (Downhill)4.7-11

4.7-6 KOP 3 – Pike Street and First Avenue, Looking North (Uphill).....4.7-13

4.7-7 KOP 4 – Pike Street, Looking West toward First Avenue4.7-14

4.7-8 KOP 5 – Looking North (Uphill) along First Avenue from the Southwest Corner
of First Avenue and Madison Street.....4.7-16

4.7-9 KOP 6 – Looking North (Uphill) along First Avenue from the Southeast Corner
of First Avenue and Marion Street4.7-17

4.7-10 KOP 7 – Looking Northwest Along Portion of First Avenue S Between Cherry
Street Columbia Street4.7-19

4.7-11 Location of South Lake Union Streetcar Expansion4.7-20

4.9-1 Seattle City Light Electricity Generation by Type, 2012.....4.9-3

4.10-1 Locations of High-Risk Sites4.10-5

4.12-1 Public Services within the Half-Mile Study Area.....4.12-2

4.13-1 Park Resources in the Center City Connector Study Area4.13-2

4.13-2 Plan View of McGraw Square versus Roadway Right-of-Way with LPA Tracks
and Westlake Station.....4.13-4

4.14-1 Area of Potential Effects (APE)4.14-2

4.14-2 Historic Properties in Westlake and Pike Place Market Area4.14-5

4.14-3 Historic Properties along First Avenue and Pioneer Square Area4.14-6

4.14-4 Historic Properties in International District-Chinatown District.....4.14-7

4.14-5 Historic Properties in South Lake Union Area4.14-8

4.14-6 Simulation of Third/Fourth Station at Stewart Street and Olive Way4.14-11

4.14-7 Simulation of Pike Station.....4.14-12

4.14-8 Simulation of Madison Station4.14-12

4.14-9 Simulation of Pioneer Square Station4.14-13

4.14-10 TPSS Site 2 within NRHP-eligible Bon Macy’s Parking Garage at Stewart Street and Third Avenue.....4.14-14

4.14-11 TPSS Site 3 Adjacent to NRHP-listed Colonial/Grand Pacific Building within Vacated Seneca Street and below First Avenue4.14-15

4.14-12 Cross Section of OCS Pole Attachment4.14-16

4.14-13 Example of OCS Wire Suspension Pole Consolidated with Lighting and Signage4.14-16

4.14-14 Example of OCS Adhered to Historic Buildings in Pioneer Square.....4.14-17

4.15-1 Minority Populations within the Study Area4.15-2

4.15-2 Low-Income Population within the Study Area4.15-5

5-1 RFFAs for the Seattle Area.....5-4

7-1 Phased Outreach Milestones.....7-2

List of Tables

ES-1 Summary of Impacts for the LPA ES-10

4.1-1 2018 and 2035 PM Peak Hour Regional Facility Comparison – Screenline #24.1-5

4.1-2 2018 and 2035 Travel Impact Comparison Summary4.1-5

4.1-3 Existing Bus Routes and Stops (along Proposed First Avenue and Stewart Street Alignment).....4.1-9

4.1-4 No Build Alternative – Assumed Transit Service Changes.....4.1-11

4.1-5 Potential Bus Service Changes with the LPA.....4.1-13

4.1-6 Peak-Hour Bus Travel Time Comparison for LPA (No Build vs. Build), 2018, 5 – 6 p.m.4.1-15

4.1-7 Peak-Hour Bus Travel Time Comparison for LPA (No Build vs. Build), 2035, 5 – 6 p.m.4.1-15

4.1.8 Streetcar and ETB OCS Conflicts by Intersection4.1-17

4.1-9 Center City Connector Streetcar Operations.....4.1-18

4.1-10 Streetcar System Weekday Ridership4.1-18

4.1-11 2018 and 2035 PM Peak Hour Vehicle and Person Throughput4.1-26

4.1-12 No Build Alternative vs. LPA (2018 and 2035) Screenline Traffic Volume Forecast Comparison, PM Peak Hour4.1-28

4.1-13 Driveway Turn Restrictions with LPA4.1-33

4.1-14 Future First Avenue Intersection Left-Turn Treatments.....4.1-35

4.1-15 Existing and Future Pedestrian Volumes4.1-42

4.1-16 Existing On-Street Parking Inventory along LPA.....4.1-45

4.1-17 No Build Alternative and LPA On-Street Parking after Project Construction.....4.1-47

4.2-1 Ambient Criteria Pollutant Concentration Levels4.2-3

4.2-2 Modeled 1-Hour Carbon Monoxide Design Values4.2-6

4.2-3 Modeled 8-Hour Carbon Monoxide Design Values4.2-6

4.3-1 City of Seattle Exterior Sound-Level Limits4.3-3

4.3-2 OMF Sound-Level Limits4.3-3

4.3-3 Groundborne Vibration and Noise Impact Criteria for Light Rail Transit Service
Frequency4.3-5

4.3-4 Streetcar General Noise Assessment Input Parameters4.3-6

4.3-5 Ambient Noise Monitoring Locations.....4.3-7

4.3-6 Streetcar Noise Impact Summary4.3-9

4.3-7 Predicted Streetcar Groundborne Vibration and Noise Levels at 50 feet for a
Two-Story Masonry Building4.3-10

4.3-8 Streetcar Operational Vibration Impacts for the LPA.....4.3-12

4.3-9 FTA Construction Noise Impact Criteria.....4.3-14

4.3-10 Construction Noise General Assessment for Removal of Existing Pavement4.3-14

4.3-11 Construction Noise General Assessment for Installation of Trackwork4.3-15

4.3-12 Construction Vibration Criteria – Building Damage4.3-15

4.3-13 Construction Vibration Sources4.3-16

4.3-14 Construction Vibration Building Damage Impact Buffers.....4.3-16

4.5-1 Historical and Projected Population4.5-1

4.5-2 Historical and Projected Household Data.....4.5-3

4.5-3 Employment Estimates from Operations.....4.5-5

4.6-1 Demographic Characteristics.....4.6-4

4.7-1 Center City Connector Landscape Units4.7-4

4.9-1 Utilities in the Study Area.....4.9-2

4.9-2 Projected Daily VMT and Energy Consumption for 20354.9-4

4.9-3 Impacts on Utilities4.9-4

4.10-1 High-Risk Sites in the Study Area4.10-2

4.13-1 Park and Recreational Resources Within the Study Area4.13-3

4.15-1 Demographic Characteristics.....4.15-3

4.15-2 Minority Populations in the Study Area4.15-3

4.15-3 Languages Spoken at Home4.15-6

4.15-4 Open Houses4.15-8

5-1 RFFAs in the Seattle Area5-5

6-1 Mitigation Measures by Discipline6-2
